2-IN-1 DUAL ELECTRONIC RELAY FOR 2-IN-1 DRIVING LIGHTS/TURN SIGNALS & 2-IN-1 BRAKE LIGHTS/TURN SIGNALS

Relay for use in installation of either set or both sets together

NOTES

- Please follow the installation instructions supplied with this relay diagram.
- Designed to allow installation of both front and rear Weiser 2-in-1 lights or individually. Therefore, if you have already connected the driving lights using the 2-in-1 relay, you can use that same relay to connect the brake lights to it as well.
- Each set of lights contains one relay.
- All wires on the relay are clearly marked.
- Please insulate the end of any unused connections/joints after testing and before road use.
